Music Pier, Omar’s, Rowan University, Stockton College, many others.

Additional Information:

We can and will play our all-original music for any duration between 30 minutes and 2 hours. We can perform using your in-house sound reinforcement equipment or bring our own. We’ve played every size of venue from the café at several Borders locations to a 5,000+ seat outdoor amphitheater.

We are able to perform in several capacities. Until we are able to make a strong impact on your club, the most desirable situation would be as an opening act for an established artist there. We can, however, play a full show or bring one or two other high quality, complementary bands at your request.
